University of Minnesota
Office for Business & Community Economic Development

Management & Technical Assistance Program (MTAP) for Nonprofits

In partnership with:
  Hubert H. Humphrey Institute of Public Affairs
  Carlson School of Management
  Twin Cities Campus Graduate Schools & Colleges
Management & Technical Assistance Program (MTAP) for Nonprofits

- The overall goal of MTAP is to improve the quality of life in Minnesota’s urban communities by enhancing the performance and effectiveness of community-based nonprofit organizations that serve such communities.

- The BCED office offers this unique program as a service to link nonprofit organizations to students, faculty and other resources at the University of Minnesota to support the economic development and revitalization of urban communities.

- This program focuses on helping these nonprofits:
  - Build capacity
  - Enhance overall performance
  - Improve operational, management and organization effectiveness
  - Develop new and efficient processes, policies and procedures
  - Accomplish critical management and operational goals and objectives

- University of Minnesota graduate and professional students provide the technical assistance under the guidance of the BCED Program Manager.
Program Eligibility Criteria

Nonprofit Participants must …

- Be a 501(c)(3) community-based nonprofit organization
- Be located in the Twin Cities nine-county metropolitan area
- Be in operation a minimum of three years
- Be able to pay an administrative fee
- Sign a Services Agreement with the University of Minnesota
- Be willing to freely share data with students, including financial information if applicable
- Be willing to adjust your schedule to meet with and support the students throughout the project
- Respond promptly to the Program Manager and student’s requests for information and documentation
- Be an overall active participant on the project team
The Process

- Projects are selected for both the Spring and Fall semesters
- Submit application by the posted deadlines
- Applications should be complete and include a detailed scope of work, goals and objectives and anticipated project deliverables
- Program Manager will inform you if your project is selected
- Project selection based on internal application review/selection process and availability of student resources
- Graduate and professional students are selected based on their expertise and skills set
- One or more students may be assigned to a particular project and projects should be completed by the end of the semester
- Students spend approximately 50 to 60 hours each on the projects
- A project work plan is required from the students at the start of the project and a final summary report and presentation is due at project completion
- Nonprofit representative and students fill out evaluation/feedback
- Student stipends are administered upon completion of payroll docs
